28 December 1949

MEMORANDUM FOR THE FILES

25X1A

SUBJECT: [REDACTED]

1. Mr. Fisher of GAO called to say that he can handle the GAO inquiry on the [REDACTED] retirement question without further assistance from us. He stated that in this case, as in many others, they merely got a small form from the Civil Service Commission raising a question as to whether a setoff would be required on the facts indicated in their files. GAO will answer that in this case no setoff will be required.

25X1A

2. This should end the matter unless Civil Service has further questions. Therefore, we need not answer the GAO letter and State Department should be instructed not to answer it either. If State questions this, Mr. Fisher said they can check with him. Unless Mr. Fisher calls us again, this should be the end of this particular case.
